A male on a motorbike got so frustrated with the female driver in front that he took it upon himself to start banging on her window. She was alarmed at what happened and took a picture of him for police. The motorcyclist also started shaking his fists and this was later known that all he wanted to do was overtake her in traffic.

NUISANCE VEHICLES

Vehicles near the dental clinic have been revving their engines and playing loud music. Some vehicles have been identified and will be issued with the appropriate warnings.

WINTER SECURITY

As we brave another winter I would like to remind all residents to be aware of making sure their security is up to date and working. Make sure if you have a mobile phone or you have bought one recently, it is security marked. Local officers for your area will be more than happy to give advice on protecting your valuables. Alternatively you can visit www.immobilise.com and register your valuables.

House security is very important if you go away over Christmas. If you get on with your neighbour, leave them a contact number in case you are away for a while. A lot of people have looked out for their neighbours and it has proven to be effective in deterring thieves.

Where possible park your vehicle on a drive and keep security lights on at night. If you have a garage, park the vehicle right up against the door so that it cannot be opened. Many people store Christmas food and drinks in their garage so be cautious.

Report anyone or anything suspicious in the area giving as much detail as possible as this can be followed up quicker. Check on an elderly neighbour and see how they are over the festive period. People sometimes think they are bothering the police, but if something is not right in your area that needs police attention, the number to call is 101 or emergency 999.
